

## **CIVIL CONSTRUCTION AND MAINTENANCE EMPLOYEES**

### **Work Locations**

Our Networks depots are based at Hope Valley (North) and Happy Valley (South).

Employees are assigned to either the Northern or the Southern Adelaide metropolitan area.

### **Background information**

We currently employ approximately 130 Construction and Maintenance employees. We have regular vacancies that arise in our Northern and Southern areas.

Employees are involved in a wide range of general maintenance activities related to the distribution of water to over 410,000 homes and businesses in Adelaide each day and the collection of industrial and household wastewater and its delivery to wastewater treatment plants.

Scope of work includes repair of burst mains, replacement of water meters, repairs to leaks on services, removal of blockages due to tree root intrusion and correction of overflows.

### **Required skills and training**

Construction and Maintenance employees are primarily non-trade based. These roles require general labouring experience and experience with basic hand tools.

Any of the following licences are an advantage

- Backhoe
- Heavy Rigid (HR)
- Light truck

Relevant training

- Workzone Traffic Management
- Confined spaces

Applicants must be team players, have a customer service focus (ie working with members of the public) and be willing to work outdoors. The positions are on a 7 day roster basis and also include regular overtime and on call. A current Medium Rigid MR license is essential for this position.

These positions offer career opportunities for employees who are keen to participate in multi-skilling and training.

Construction and Maintenance employees are usually recruited on a temporary labour hire basis. There are very good prospects of permanency for people who demonstrate good performance within the first 3-6 months of their employment.
